CHEMAROME SHOWROOM  
Spain

Crafted by hand and heart  
#BEAUTYTOALL

Chemarome is a dynamic and modern international fragrance manufacturer with European heritage originating in Barcelona. We specialize in the design, development and manufacturing of fragrance compositions.

Our creativity and state-of-the-art technology, combined with more than two decades of experience in the industry, allow us to provide the best solutions for customer needs.

Crafted by hand and heart  
#BEAUTYTOALL

## International Reach

We fully develop & manufacture in Barcelona, Bangkok, Jakarta, Curitiba and Ningbo for a closer and faster delivery to any location worldwide. Additionally, we provide regional support with labs in Indonesia (Jakarta), Vietnam (Ho Chi Minh City), Nigeria (Lagos), China (Ningbo) and Sri Lanka (Colombo). Our commercial network of offices and agents covers most of Asia, the Middle East, South America and West and Central Africa.

We believe our international experience allows us to tailor global solutions from a local perspective.

Crafted by hand and heart  
#BEAUTYTOALL

## Products

We specialize in the field of olfactory beauty. Our products range from Fine Perfumes to Personal Care (fragrances for shower gels, shampoos, deodorants, creams). In addition, we create Home Care fragrances for household applications (detergents, fabric softeners, all-purpose cleaners), fragrances intended and especially formulated for Air Care (air fresheners, candles, bakhoors) and Industrial scents (for paints, glues, inks, plastics, lubricants).

“Our fragrances are used in over 30 countries, being served to almost 1 billion potential customers”

**GAS CHROMATOGRAPHY-MASS  
SPECTROMETRY (GC-MS) MACHINE**  
Chemarome Laboratory, Spain

“Our main R&D laboratory in Barcelona contains a large-capacity Development Lab with a Roxane-K robot for an ultra-fast sampling system and an Applications Lab where the fragrances are tested in our clients’ products in order to achieve the best and most stable results. Soon, we will also apply the Roxane technology to our production efforts, significantly increasing our capacity”

Crafted by hand and heart

## Regional R&D and Production

With our main R&D center in Barcelona and subsidiary laboratories in Jakarta, Ho Chi Minh City, Lagos, Ningbo and Colombo, we cover the full spectrum of technological demands, quality controls and regulation standards wherever we operate.

Chemarome unites human and machine proficiency, with a team of internationally recognized perfumers and the latest developments in gas chromatography – mass spectrometry technology, olfactory cabins, sampling robots and other high tech equipment in each one of our laboratories.

## Facilities

We apply our creativity in all of our formulations while enforcing the strictest quality controls amongst our fragrances and achieving lead times that are amongst the best in the industry. None of this would be possible without our cutting-edge analytical, sampling and production facilities.

“Our fully-fledged factories in Barcelona, Bangkok, Jakarta, Ningbo and Curitiba provide the quality standards and fast deliveries the most competitive customers require”

# Certification

Crafted by hand and heart  
#BEAUTYTOALL

ISO 9001:2015

HALAL Certificate

GMP Certificate

Parfarome  
a chemarome brand

## BRAND

Parfarome is Chemarome's filling market brand, founded in 2015. Concentrating in the Muslim market, we develop and supply retail perfumes completely free of ingredients and chemical aromas derived from alcohol, pigs and other materials banned from consumption under Islamic law.

Parfarome products are concentrated fragrance oils inspired by the best perfumes in the world. They are produced in Indonesia with imported raw materials from Barcelona, making Parfarome quality comply with European standard licenses and certificates at the same time that it adapts to Muslim taste and culture

## DIGITAL CATALOG

The Digital Catalog of Parfarome is the first & only available worldwide. We have created a new and innovative way of supporting our clients in easily accessing and conveniently selecting our range of perfumes online. Decision-making made easy with technology at the palm of your hand

## PRODUCT & SOLUTION

Our wide range of perfumes are prepared to go along with you and inspire your most demanding scented adventures. Bringing together a blend of the most popular and trendy European brands and the exoticism of the Arabic perfumery. We cater all kinds of demand with our three quality tiers: Standard, Deluxe and Premium, available for each one of our products

## CERTIFICATION

In order to reach a global market and approach larger audiences, we accomplished ISO and GMP status. Our products are also Halal certified by the Indonesia Council of Ulama, one of the toughest Halal to achieve, due to the most rigorous examinations and requirements by the authorities.

## R&D AND FACILITIES

With our main R&D center in Barcelona, fully-fledged factories in Spain, Indonesia, Thailand, China and Brazil, and subsidiary laboratories in Jakarta, Ho Chi Minh City, Colombo, Ningbo and Lagos, we cover the full spectrum of technological demands, quality controls and regulation standards wherever we operate.

Our extended network of research, development, production and distribution also allows us to deliver finished goods to any location worldwide in record time.

## PACKAGING

We pack the resulting oil blends in 25 kg plastic drums, 5 kg plastic or aluminum drums and 1 kg plastic or aluminum canisters and make them ready to be shipped to our clients with our signature labels and characteristic branding. Our plastic and aluminum materials have been thoroughly tested and proven not to contaminate the products inside them

*"With Parfarome, we have succeeded in bringing top-notch French fragrances to every local shop and market in Indonesia"*

# WORK WITH US
